Part 7. Additional Information

- 1. UAS:** An aircraft owned or utilised under the care, custody, possession or control of the insured which is operated remotely without any on-board pilot, for which you are legally responsible, including tethered aerostats but excluding kites.
- 2. UAS operator:** The person who at all times directly manipulates the flight controls of the UAS and exercises direct authority over the initiation, continuation, diversion or termination of the UAS flight, excluding employed observers of the insured.
- 2. UAS spares:** All equipment owned by the insured and designed to be fitted to or forming part of the UAS or ancillary equipment exclusively associated with the activities covered, including without limitation the ground control station and non-detachable payload, excluding at the time at which commencement of the operation of fitting it to the UAS begins.
- 3. Unit:** A part or an assembly of parts (including any sub-assemblies) of the UAS which has been assigned an overhaul life as a part or an assembly.
- 4. Detachable Payload:** Photographic/video equipment carried by the UAS that is removable and/or interchangeable from the UAS.
- 5. Non-detachable Payload:** Photographic/video equipment carried by the UAS that forms an integral part of the UAS and is not intended to be removed from the UAS.
